

Zohaib Ali

Full Stack Developer • MERN • AI-Powered Products

Karachi, Pakistan | +92 336-2131803 | iamzohaibarain803@gmail.com | linkedin.com/in/zohaib-ali | github.com/Zohaib-Ali

PROFESSIONAL SUMMARY

Full Stack MERN Developer with 4+ years of experience building scalable web applications and integrating AI-powered features that solve real business problems. Delivered high-impact platforms including a U.S. healthcare solution serving 600K+ patients and AI-driven analytics products for the international solar energy sector. Focused on building intelligent, reliable systems where users can manage everything from a single dashboard with automated insights.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Redux, Tailwind CSS, Material UI, Ant Design

Backend: Node.js, Express.js, REST API Design, MongoDB, SQL, Prisma, Sequelize, Firebase

AI / Automation: OpenAI API, RAG Systems, Vector Databases, LangChain, Vapi (voice agents), n8n, Latenode, Python, Prompt Engineering

Tools & Practices: Git, GitHub, Postman, Cypress, Vercel, CI/CD, Agile / Scrum

PROFESSIONAL EXPERIENCE

Full Stack Developer

Nov 2025 – Present

Meezotech (Darent Project, Saudi Arabia) • Remote

- **Darent:** Developing an Airbnb-style property rental and booking platform for the Saudi market, across the full stack using React, Next.js, Node.js, and Tailwind CSS.
- Building booking and reservation workflows: property listings, search and filtering, availability calendars, and host/guest dashboards backed by REST APIs.
- Implementing responsive, RTL-ready interfaces and reusable components to keep the product consistent and maintainable.

MERN Stack Developer / AI Developer

Nov 2022 – May 2025

Atompoint — Karachi, Pakistan

- **CRC (U.S. Telehealth Platform):** Led full-stack development of a U.S. telehealth and rehab platform — onboarded 100K+ patients and 10K+ physicians; the platform now serves 600K+ patients across 1,000+ facilities. Built clinical workflows (patient management, scheduling, telehealth analytics) using React, Node.js, and MongoDB.
- **Wakeel AI (Legal-Tech):** Built an AI-powered legal document review and research system — users search, analyse, and manage cases on a single AI-driven dashboard with automated insights, reducing case-research time by ~70%.
- Designed automated workflows (n8n) for scheduling, CRM sync, and notifications; ran R&D on AI data-pipeline optimisation.

Associate Software Engineer

Jan 2022 – Sep 2022

Squarera (A DataPillar Company) — Karachi, Pakistan

- Built interactive data-rich frontend modules in React/Redux; transformed raw API data into dynamic visualisations and KPI dashboards for enterprise clients.
- Developed a full-featured internal HRM system (MERN stack) covering leave management, payroll, and onboarding workflows.

KEY PROJECTS & ACHIEVEMENTS

- **Sol.ai:** AI-powered solar monitoring platform that pulls real-time data from inverters, runs automated performance analysis, auto-detects panel faults, and delivers daily WhatsApp reports to clients.
- **SolarConnect.ai:** End-to-end solar installation management platform with roof-design and panel-layout planning, multi-team coordination, automated stage-wise notifications, and live progress tracking for clients and field teams.
- **AI Voice Calling Agent:** AI-powered voice agent built with Vapi for a call center — handles inbound and outbound calls with natural conversation, lead qualification, and appointment booking; enables 24/7 availability.
- **AI Customer Support Agent (RAG):** Website-integrated AI support agent that learns from a business's own documents and knowledge base to answer customer queries in real time, with an embeddable chat widget and admin dashboard.

EDUCATION

Bachelor of Science in Information Technology

2018 – 2022

Shaheed Benazir Bhutto University
